Dies at Age of 115.

Jeannette Mayberry, colored, who lived at 904 Cedar street, Nashville, dropped dead Dec. 30, at the home of her son, George Mayberry, near Buechel, Ky., where she had been visiting since just before Christmas. The woman's relatives claim that she was 115 old. Her son is said to be 85 years old.

Ten years have been added to man's average life during the past twenty-five years.

CAPT. STITES HONORED

Appointed To Membership Com-
mittee of Navy League
of U. S.

Washington, Jan. 3.—Capt. Henry J. Stites, of Hopkinsville, Ky., has been appointed to the Membership Committee of the Navy League of the United States, and will help to represent that organization in his district in the active, aggressive campaign which it is carrying on in all parts of the country in behalf of adequate preparedness against invasion and disaster. He will co-operate with the members of the Navy League's state committee for Kentucky and will lend his energetic and enthusiastic support to the work undertaken to consolidate and organize the overwhelming sentiment of people of that state in behalf of measures of adequate preparedness. A special letter has been forwarded Mr. Stites by the Navy League, notifying him of his appointment.

The Navy League holds that this country's best defense lies in the three thousand or more miles of water which separates it from the nearest of its powerful neighbors. Should war ever be forced upon this country, the Navy League holds, its battles ought not to be fought by armies on American soil, but by trained fighting men in ships, far out on the ocean where destruction of life and property will be kept to a minimum, and the savage business of killing will be kept as far as possible from America's homes and shores.

To this end it has always advocated a navy second to none, which will be able to guarantee absolutely that no hostile army will be able ever to effect a landing upon the shores of our country, and in this demand it believes it is backed by unanimous public opinion all over the country. The most effective testimony to the popularity of the cause of the Navy League with representative citizens all over the country is the manner in which its membership has increased by leaps and bounds within the past few months until at present it numbers upon its rolls more than 60,000 members.

The Navy League is the oldest and best organized of the National Defense societies. It was founded and chartered in 1902, and among its officers and members are Admiral Dewey, Theodore Roosevelt, Cardinal Gibbons, Rt. Rev. Philip Rhinelander and Dr. Lyman Abbott, while many of America's most prominent women are among the members of its Woman's Section. Its accounts are and always have been opened to inspection. The headquarters of the Navy League are in the Southern Building in Washington, D. C., and further information will be gladly furnished upon application to the Secretary.

SOLDIERS BETTING THEY WILL NOT BE KILLED.

London, Jan. 3.—Lloyd's is offering the risk of 3 to 1 that Ferdinand, king of Bulgaria, will not be on his throne June 1, 1916. The risk started at 20 to 1, but the turn of affairs in the Balkans drove it down.

Most persons who have taken cut policies on the Bulgarian here are Englishmen with business interests in the Balkans and Bulgaria. Their losses will be great if Ferdinand retains his throne and they are preparing for the minimum loss.

On the expiration of the war, Lloyd's offers 10 to 1 that it will last beyond December, 1916. A new risk something like their Easter insurance against rain on new bonnets, is the one wherein the soldier bets with Lloyd's that he will not be killed. The risk, 8 to 1 against death, is said to be heavily patronized.

320 Bankruptcies.

Louisville records covering Western Kentucky show 320 bankruptcy cases in 1915, as compared with 208 in 1914. A majority of the failures were due to the previous years' business.

You've hit the right tobacco

when you fire-up some Prince Albert in your old jimmy pipe or in a makin's cigarette. And you know it! Can't get in wrong with P. A. for it is made *right*; made to spread-smoke-sunshine among men who have suffered with scorched tongues and parched throats! The patented process fixes that—and cuts out bite and parch. All day long you'll sing how glad you are you're pals with

It's an easy job to change the shape and color of unsuitable brands to imitate the Prince Albert tidy red tin, but it is impossible to imitate the flavor of Prince Albert tobacco. The patented process protects that!

PRINCE ALBERT

the national joy smoke

You take this testimony straight from the shoulder, men. You can smoke a barrel of P. A. without a kick! It hands out all the tobacco happiness any man ever dreamed about, it's so smooth and friendly. It's a mighty cheerful thing to be on talking-terms with your pipe and your tongue at the same time—but that's what's coming to you sure as you pin your faith to Prince Albert!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Everywhere tobacco is sold you'll find Prince Albert waiting your cheerful visit. Buy it in tidy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tins—and in that classy pound crystal-glass humidor with sponge-moistener top that keeps the tobacco so fit!

WHAT GERMANY

MIGHT CONSIDER.

The two things most thoroughly demonstrated thus far in the war are: First, that England's sea power cannot be broken, and that the British Empire has neither yet been shaken nor is likely to be disturbed; while the second fact is that Germany's amazing power of organization and unified action, together with her advantages due to operating from an inner position, renders her practically invincible—at least from the defensive standpoint,—in a war on land. England cannot and will not give up the war while Belgium is either directly or indirectly under German control. France cannot and will not give up the war with enemies entrenched upon French soil. The German authorities now understand that they are not to remain in Belgium or France.

As a price of permanent peace, they would probably be willing to make some slight concessions to France on the Alsace-Lorraine frontier. As regards Russia, the most responsible Germans probably no

longer have any thought of holding Russian territory as spoils of war. But they would like to create the Kingdom of Poland, chiefly out of Polish Russia, and to have Poland as a buffer state. They would also probably like to see Rumania gain something to the northward by taking back Bessarabia from Russia, in order that the Russians might be more effectively kept from the Balkans and Constantinople. Germany would undertake to find her own compensation by securing the consent of Europe and the world to undertake the development of the Turkish Empire and to hold a position of recognized leadership,—not of formal rulership,—throughout the southeast of Europe. Thus Germany is taking the Balkan campaign very seriously, and is pushing the

uncompleted parts of the Bagdad railroad system with intense energy. —From "The Progress of the American Review of Reviews for January, 1916."

Mortality Rates Lowered.

In his annual report Dr. A. T. McCormack, secretary of the State Board of Health, points to the fact that the death rate from typhoid fever in Kentucky has been reduced from forty-five per 100,000 five years ago to 26.9 during the year just ended. The death rate from tuberculosis five years ago was 225 for each 100,000 population, while last year it was 201.6.
